

Paper Horses

A *tangram* is a Chinese puzzle made by cutting a square sheet of paper into seven different pieces. Those pieces can then be arranged in a great variety of ways to create animals, people, and all kinds of familiar images. Here's how you can turn a tangram into a few horse-related pictures.

❶ Fold a square piece of paper in half four times in a row to create 16 smaller squares.

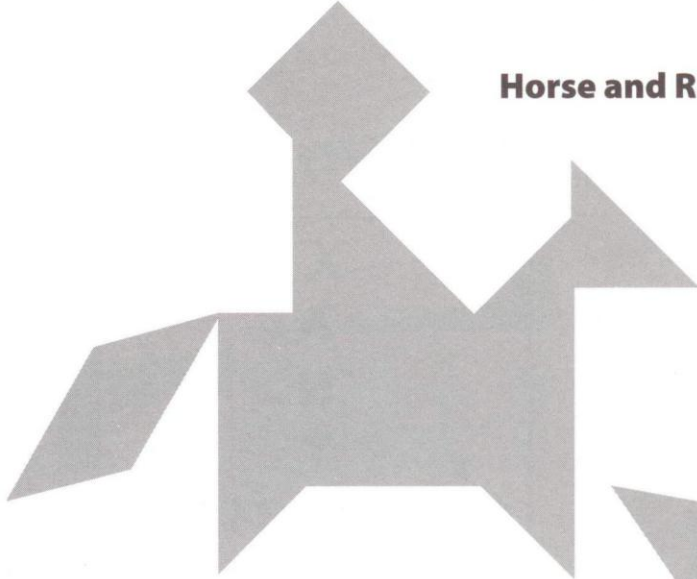

❷ Spread the paper flat, then draw cutting lines on the paper, as shown.

3 Cut along the lines to create these seven shapes. Then see if you can rearrange the pieces to create the images on the next page. Keep in mind that it takes all seven shapes to create each image.
